Serialization

Threads!

SI Session Expectations

Thanks for coming to the **SER 321** SI session. We have a packed agenda and we are going to try to get through as many of our planned example problems as possible. This session will be recorded and shared with others.

- If after this you want to see additional examples, please visit the drop-in tutoring center.
- We will post the link in the chat now and at the end of the session.
 - tutoring.asu.edu
- Please keep in mind we are recording this session and it will be made available for you to review 24-48 hours after this session concludes.
- Finally, please be respectful to each other during the session.

Interact with us:

Zoom Features

Zoom Chat

- Use the chat feature to interact with the presenter and respond to presenter's questions.
- Annotations are encouraged

SER 321

Protocol Tips

Stay Organized!

Try to emulate the structure in 3-1

Format your Markdown!

SER 321

  "data" : <String> -- String to be echoed
}

#### General response: ####
```

Protocol:

Echo:

Request:

```
{
  "type" : "echo",
  "data" : <String>
}
```

General response:

SER 321

JSON

Which of the following would be a valid response?

```
{  
  "type" : "echo", -- echoes the initial response  
  "ok" : <bool>, -- true or false depending on request  
  "echo" : <String>, -- echoed String if ok true  
  "message" : <String>, -- error message if ok false  
}
```

Echo General Response

A. {
 "type" : "echo",
 "echo" : <String>
}

C. {
 "type" : "echo",
 "message" : <String>
}

B. {
 "type" : "echo",
 "ok" : false,
 "echo" : <String>
}

D. {
 "type" : "echo",
 "ok" : true,
 "echo" : <String>
}

Check out the recording for the solution and discussion!

SER 321

JSON

Which of the following would be a valid response?

```
{  
  "type" : "echo", -- echoes the initial response  
  "ok" : <bool>, -- true or false depending on request  
  "echo" : <String>, -- echoed String if ok true  
  "message" : <String>, -- error message if ok false  
}
```

Echo General Response

A. {
 "type" : "echo",
 "ok" : false,
 "echo" : <String>
}

C. {
 "type" : "echo",
 "ok" : false
}

B. {
 "type" : "echo",
 "ok" : false,
 "message" : <String>
}

D. {
 "type" : "echo",
 "ok" : true,
 "message" : <String>
}

Check out the recording for the solution and discussion!

SER 321

HTTP Matching

Match the HTTP response code with its meaning:

Code:

1XX

2XX

3XX

4XX

5XX

Meaning:

User Error

Server Error

Information

Redirect

Success

Check out the recording for the solution!

Check out the recording for the discussion!

What is *serialization*?

“Translating data structures or object states for storage or transmission”

Object Stream

Java Objects

SER 321

Sockets!

Check out the recording for the discussion!

```
> Task :runServer
Server ready for connections
Server is listening on port: 9099
-----
Values of the ServerSocket Object:
Inet Address: 0.0.0.0/0.0.0.0
Local Port: 9099
Server waiting for a connection
Server connected to client
-----
Values of the Client Socket Object after Connection:
    Inet Address: /127.0.0.1
    Local Address: /127.0.0.1
    Local Port: 9099
    Allocated Client Socket (Port): 60296
<=====--> 75% EXECUTING [2m 36s]
> :runServer
```

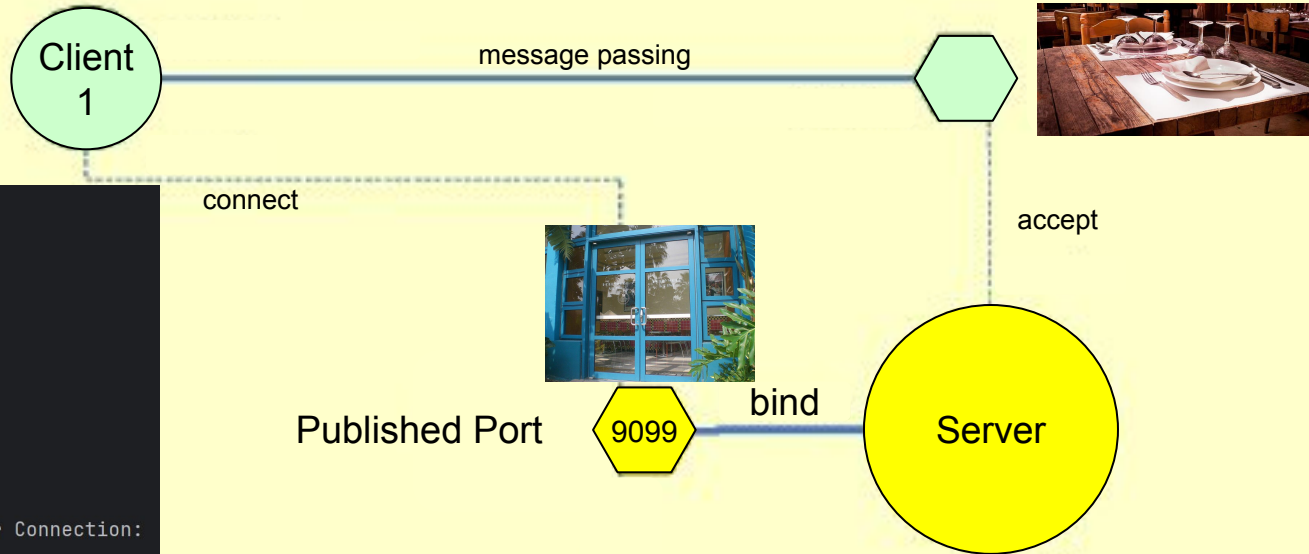

```
> Task :runClient
Connected to server at localhost:9099
Values of the Socket Object for the Server:
    Host: /127.0.0.1
    Port: 9099
    Local Port: 60296
String to send>
<=====--> 75% EXECUTING [2m 18s]s]
> :runClient
```

SER 321

Sockets!

```
> Task :runServer
Server ready for connections
Server is listening on port: 9099
-----
Values of the ServerSocket Object:
Inet Address: 0.0.0.0/0.0.0.0
Local Port: 9099
Server waiting for a connection
Server connected to client
-----
Values of the Client Socket Object after Connection:
Inet Address: /127.0.0.1
Local Address: /127.0.0.1
Local Port: 9099
Allocated Client Socket (Port): 60296
<=====--> 75% EXECUTING [2m 36s]
> :runServer
```

```
> Task :runClient
Connected to server at localhost:9099
Values of the Socket Object for the Server:
Host: /127.0.0.1
Port: 9099
Local Port: 60296
String to send>
<=====--> 75% EXECUTING [2m 18s]s]
> :runClient
```

Check out the recording for the discussion!

SER 321

System Layout

Check out the recording for the discussion!

You have two systems...

How can we test our server with multiple clients?

?

SER 321

Threads

Check out the recording for the discussion!

What does that imply?

Remember that they exist
within the parent process

Academic Support

Academic Support Network (ASN) provides a variety of free services in-person and online to help currently enrolled ASU students succeed academically.

Services

Subject Area Tutoring

Need in-person or online help with math, science, business, or engineering courses? Just hop into our Zoom room or drop into a center for small group tutoring. We'll take it from there.

[Need help using Zoom?](#)

[View the tutoring schedule](#)

[View digital resources](#)

Go to Zoom

Writing Tutoring

Need help with undergraduate or graduate writing assignments? Schedule an in-person or online appointment, access your appointment link, or wait in our drop-in queue.

[Access your appointment link](#)

[Access the drop-in queue](#)

Schedule Appointment

Online Study Hub

Join our online peer communities to connect with your fellow Sun Devils. Engage with our tools to search our bank of resources, videos, and previously asked questions. Or, ask our Tutorbot questions.

Now supporting courses in Math, Science, Business, Engineering, and Writing.

Online Study Hub

Online peer communities for students and tutors, YouTube channels, and Tutorbots.

What are online peer communities?

Individual courses have an online peer community that allows you to connect with your peers to post and answer questions and to develop study groups.

How can tutoring center videos help?

Videos can help supplement the learning you're doing in and outside of class and include step-by-step methods for how to understand concepts.

How does the Tutorbot work?

You can ask the Tutorbot questions about course concepts and the Tutorbot will recommend additional resources and examples to help address your questions.
