

# SER 321 C Session

**SI Session**

**Thursday, June 27th 2024**

*6:00 pm - 7:00 pm MST*

# Agenda

Peer to Peer Structures

Joining the Cluster

Examine Communication

RAFT

# SI Session Expectations

Thanks for coming to the **SER 321** SI session. We have a packed agenda and we are going to try to get through as many of our planned example problems as possible. This session will be recorded and shared with others.

- If after this you want to see additional examples, please visit the drop-in tutoring center.
- We will post the link in the chat now and at the end of the session.
  - [tutoring.asu.edu](https://tutoring.asu.edu)
- Please keep in mind we are recording this session and it will be made available for you to review 24-48 hours after this session concludes.
- Finally, please be respectful to each other during the session.

# Interact with us:

## Zoom Features

### Zoom Chat

- Use the chat feature to interact with the presenter and respond to presenter's questions.
- Annotations are encouraged

# SER 321

## Communication

# SER 321

## Communication

How do we handle the client in a Peer to Peer system?

*Check out the recording for the discussion!*

Request is sent to the  
*current leader*

or

Peer that received the  
request *acts as the leader*

**SER 321**

**Communication**

What about **adding** a Peer to the Cluster?

***Check out the recording for the discussion!***

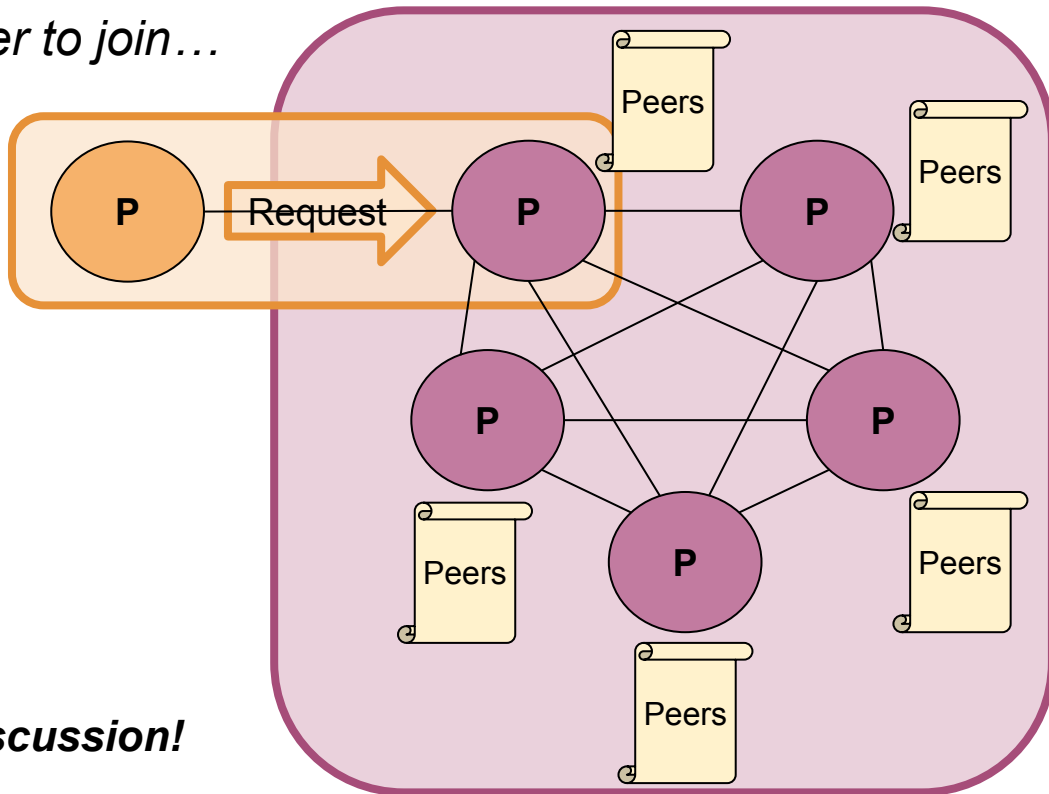

**SER 321**

**Communication**

What about **adding** a Peer to the Cluster?

*Assuming we want to allow the peer to join...*

Is that all?

*Check out the recording for the discussion!*

# SER 321

## Communication

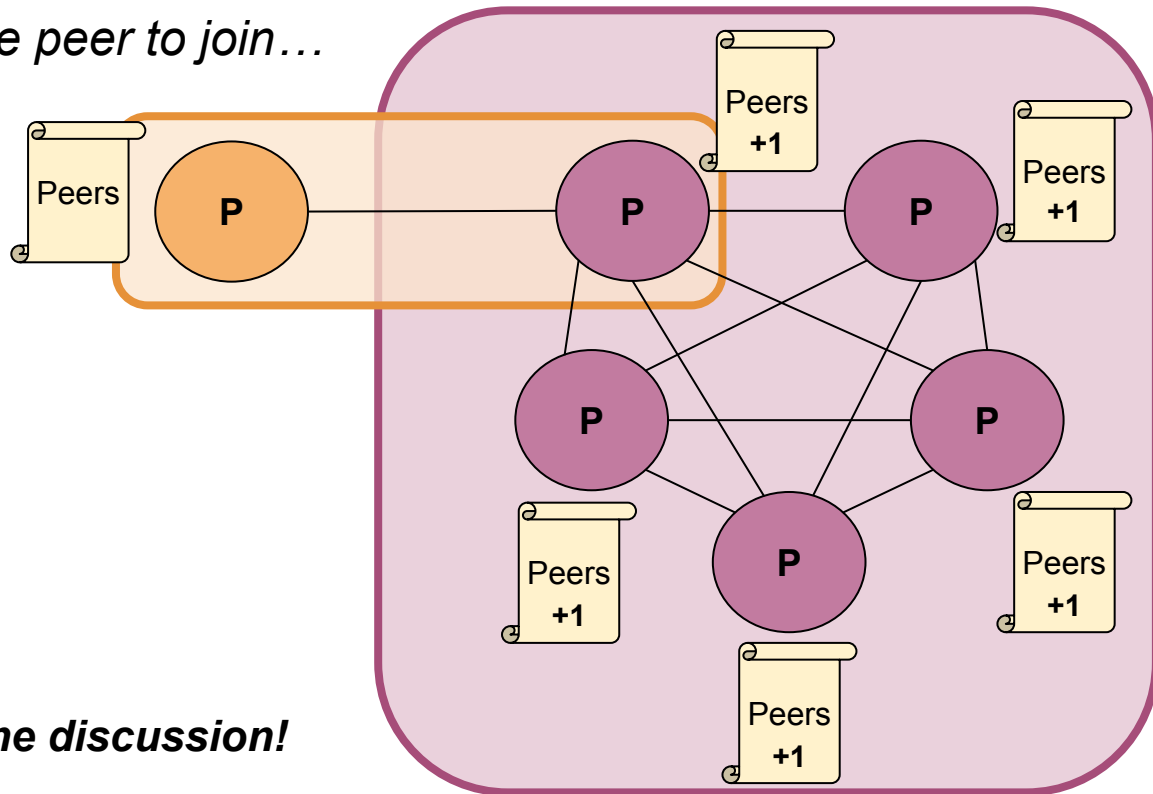

What about **adding** a Peer to the Cluster?

*Assuming we want to allow the peer to join...*

Three Additional Steps:

- 1.
- 2.
- 3.

*Check out the recording for the discussion!*

**SER 321**

**Communication**

Remember that the OS allocates a new port for the client socket!

Run With:

```
gradle runPeer --args "Name Port"
```

*Check out the recording for the discussion!*

We are going to take a closer look at the code in a moment!

```
gradle runPeer --args "Peer8000 8000"
```

# SER 321

## Communication

```
gradle runPeer --args "Peer7000 7000"
```

```
> Task :runPeer
Hello Peer7000 and welcome! Your port will be 7000
> Who do you want to listen to? Enter host:port
<=====--> 75% EXECUTING [21s]
> :runPeer
█
```

***Check out the recording for the discussion!***

```
gradle runPeer --args "Peer8000 8000"
```

```
> Task :runPeer
Hello Peer8000 and welcome! Your port will be 8000
> Who do you want to listen to? Enter host:port
<=====--> 75% EXECUTING [21s]
> :runPeer
█
```

# SER 321

# Communication

```
gradle runPeer --args "Peer7000 7000"
```

```
> Task :runPeer
Hello Peer7000 and welcome! Your port will be 7000
> Who do you want to listen to? Enter host:port
<=====----> 75% EXECUTING [21s]
> :runPeer

```

***Check out the recording for the discussion!***

```
> Task :runPeer
Hello Peer8000 and welcome! Your port will be 8000
> Who do you want to listen to? Enter host:port
<=====--> 75% EXECUTING [1m 56s]
> You can now start chatting (exit to exit)
<=====--> 75% EXECUTING [2m 3s]
> :runPeer
```

# SER 321 Communication

What will  
happen?

```
> Task :runPeer
Hello Peer7000 and welcome! Your port will be 7000
> Who do you want to listen to? Enter host:port
<===== > 75% EXECUTING [21s]
> :runPeer
█
```

```
> Task :runPeer
Hello Peer8000 and welcome! Your port will be 8000
> Who do you want to listen to? Enter host:port
<===== > 75% EXECUTING [1m 56s]
> You can now start chatting (exit to exit)
<===== > 75% EXECUTING [3m 33s]
<===== > 75% EXECUTING [3m 37s]
hi 7000
```

```
PS C:\ASU\SER321\examples_repo\ser321examples\Sockets\S
Starting a Gradle Daemon, 1 busy and 1 stopped Daemons
```

```
> Task :runPeer
Hello Peer7000 and welcome! Your port will be 7000
> Who do you want to listen to? Enter host:port
<===== > 75% EXECUTING [2m 48s]
> :runPeer
█
```

Why?

## Academic Support

Academic Support Network (ASN) provides a variety of free services in-person and online to help currently enrolled ASU students succeed academically.

### Services

#### Subject Area Tutoring

Need in-person or online help with math, science, business, or engineering courses? Just hop into our Zoom room or drop into a center for small group tutoring. We'll take it from there.

[Need help using Zoom?](#)

[View the tutoring schedule](#)

[View digital resources](#)

Go to Zoom

#### Writing Tutoring

Need help with undergraduate or graduate writing assignments? Schedule an in-person or online appointment, access your appointment link, or wait in our drop-in queue.

[Access your appointment link](#)

[Access the drop-in queue](#)

Schedule Appointment

#### Online Study Hub

Join our online peer communities to connect with your fellow Sun Devils. Engage with our tools to search our bank of resources, videos, and previously asked questions. Or, ask our Tutorbot questions.

Now supporting courses in Math, Science, Business, Engineering, and Writing.

## Online Study Hub

Online peer communities for students and tutors, YouTube channels, and Tutorbots.

### What are online peer communities?

Individual courses have an online peer community that allows you to connect with your peers to post and answer questions and to develop study groups.

### How can tutoring center videos help?

Videos can help supplement the learning you're doing in and outside of class and include step-by-step methods for how to understand concepts.

### How does the Tutorbot work?

You can ask the Tutorbot questions about course concepts and the Tutorbot will recommend additional resources and examples to help address your questions.
