SI Session Expectations

Thanks for coming to the **SER 321** SI session. We have a packed agenda and we are going to try to get through as many of our planned example problems as possible. This session will be recorded and shared with others.

- If after this you want to see additional examples, please visit the drop-in tutoring center.
- We will post the link in the chat now and at the end of the session.
 - tutoring.asu.edu
- Please keep in mind we are recording this session and it will be made available for you to review 24-48 hours after this session concludes.
- Finally, please be respectful to each other during the session.

Interact with us:

Zoom Features

Zoom Chat

- Use the chat feature to interact with the presenter and respond to presenter's questions.
- Annotations are encouraged

CORRECTION

Sockets/JavaSimpleSock2

SER 321

Gradle Review Which if statement will execute with gradle SocketClient ?

```
} else {  
    args("localhost", "Hello!", 99)  
}
```

```
if (project.hasProperty("host") && project.hasProperty("message") && project.hasProperty("number")) {  
A.    args(project.getProperty('host'), project.getProperty('message'), project.getProperty('number'));  
}  
else if (project.hasProperty("host") && project.hasProperty("message")) {  
B.    args(project.getProperty('host'), project.getProperty('message'));  
}  
else if (project.hasProperty("number")) {  
C.    args(project.getProperty('number'), project.getProperty('message'), project.getProperty('host'));  
    "See: https://gph.is/2y76sj4", project.getProperty('number'));  
}  
else if (project.hasProperty("host")) {  
D.    args(project.getProperty('host'));  
}
```

Let's run as is...

NONE! 

How could we change that?

SER 321

Gradle Review

Have we set a default host here?

```
if (project.hasProperty("host") && project.hasProperty("message") && project.hasProperty("number")) {  
    args(project.getProperty('host'), project.getProperty('message'), project.getProperty('number'));  
} else if (project.hasProperty("host") && project.hasProperty("message")) {  
    args(project.getProperty('host'), project.getProperty('message'));  
} else if (project.hasProperty("host") && project.hasProperty("number")) {  
    args(project.getProperty('host'),  
        "Set by Gradle, since nothing provided: https://gph.is/2y76sj4", project.getProperty('number'));  
} else if (project.hasProperty("host")) {  
    args(project.getProperty('host'));  
}
```

SER 321

Gradle Review

Have we set any defaults here?

Network/HTTP-JSON

Let's modify this code to have *both* defaults and command line properties!

```
task API(type: JavaExec) {  
    classpath = sourceSets.main.runtimeClasspath  
    main = 'API'  
    // default args  
    args 'kgary' // port  
}
```

First let's make the *if* statement:

SER 321

Gradle Review

Let's modify this code to have *both* defaults and command line properties!

```
task API(type: JavaExec) {  
    classpath = sourceSets.main.runtimeClasspath  
    main = 'API'  
  
    //OPTION 1  
  
    // default args  
    args 'kgary' // port  
  
    //OPTION 2  
  
}
```

First let's make the *if* statement:

Okay, now where do we put it?

Check out the recording for the discussion!

SER 321

Gradle Review

IMPORTANT NOTE!

**So you need to *refresh*
the project in your IDE!**

```
task API(type: JavaExec) {  
    classpath = sourceSets.main.runtimeClasspath  
    main = 'API'  
  
    //OPTION 1  
  
    // default args  
    args 'kgary' // port  
  
    //OPTION 2  
    if (project.hasProperty("port")) {  
        args(project.getProperty("port"));  
    }  
}
```

We changed the
content of
build.gradle

Academic Support

Academic Support Network (ASN) provides a variety of free services in-person and online to help currently enrolled ASU students succeed academically.

Services

Subject Area Tutoring

Need in-person or online help with math, science, business, or engineering courses? Just hop into our Zoom room or drop into a center for small group tutoring. We'll take it from there.

 **Academic Support Network**

Services Faculty and Staff Resources About Us

University College

Online Study Hub

Online peer communities for students and tutors, YouTube channels, and Tutorbots.

What are online peer communities?

Individual courses have an online peer community that allows you to connect with your peers to post and answer questions and to develop study groups.

How can tutoring center videos help?

Videos can help supplement the learning you're doing in and outside of class and include step-by-step methods for how to understand concepts.

How does the Tutorbot work?

You can ask the Tutorbot questions about course concepts and the Tutorbot will recommend additional resources and examples to help address your questions.
