SI Session Expectations

Thanks for coming to the **SER 321** SI session. We have a packed agenda and we are going to try to get through as many of our planned example problems as possible. This session will be recorded and shared with others.

- If after this you want to see additional examples, please visit the drop-in tutoring center.
- We will post the link in the chat now and at the end of the session.
 - tutoring.asu.edu
- Please keep in mind we are recording this session and it will be made available for you to review 24-48 hours after this session concludes.
- Finally, please be respectful to each other during the session.

Interact with us:

JSON

If I said:

JSONObject json =

How would we...

Get the project name?

String name = ""; name =

Get the dependencies?

JSONObject dependencies; dependencies =

we see? "private": true, "scripts": { How many arrays do "dev": "vite", we see? "build": "vite build", "preview": "vite preview"

"@vitejs/plugin-vue": "^4.3.1",

"dependencies": {

"vue": "^3.3.4"

"devDependencies": {

How many members of we see?

How many objects do

"vite": "^4.4.9" Check out the recording for the solution!

JSON Helper

JSON Helper

```
JSONObject json =
```

Let's do a more complex one! How would you...

Get the dev script value?

STEP ONE:
Get the scripts JSONObject

```
JSONObject scripts =
```

STEP TWO:
Get the dev value

```
String devVal =
```

"vue": "^3.3.4"
},

"devDependencies": {

 "@vitejs/plugin-vue": "^4.3.1",

 "vite": "^4.4.9"

"build": "vite build",

"preview": "vite preview"

"private": true,

{"dev": "vite",

"dependencies": {

"scripts": {

HTTP-JSON from course repo

> Task :API

Run with gradle API First prints what was returned, shown below

Now we just need to pull out what we need!

SER 321 NGINX

Did we get nginx working on our second machine?

You will need to modify the configuration file to get the server running!

```
server {
   listen
                80;
          [::]:80;
   listen
